Dear Colleagues!

Astrakhan State Technical University holds an international scientific and practical discussion forum "**The Future of the Global World: Unity through Diversity**".

Date: **April 21, 2022.**

Venue: **16 Tatishcheva str., main building of ASTU, room 309.**

The latest events taking place in the world affect the entire world community, all people living in Russia and other countries.

In this regard, it seems necessary to try to give a preliminary assessment by the scientific and expert community of the main trends in the future development of the global global system.

The forum invites: government representatives, representatives of Russian cultural, educational, scientific institutions; scientific and national societies, public organizations, students.

The purpose of the forum: determination of the most effective ways to constructively build the global global system from the standpoint of socio-cultural diversity.

Tasks of the Forum:

- discussion of issues related to the formation of a multicultural model of globalization;
- promoting the education of young people and their upbringing in the spirit of national tolerance;
- identification of the main mechanisms of economic and socio-cultural interaction within the global global system.

Status and organizers:

- international scientific and practical forum;
- Astrakhan State Technical University;
- Government of the Astrakhan region;
- Ministry of Culture and Tourism of the Astrakhan region;
- Association "Center for International and Socio-Political Studies "Caspian-Eurasia".

The composition of the organizing committee:

Chairman of the Organizing Committee:

Nevalenny A.N. – Rector of Astrakhan State Technical University, Professor, Doctor of Biological Sciences;

Members of the Organizing Committee:

Gorina I. V. – Deputy Chairman of the Government of the Astrakhan region;

Prokofieva O. N. – Minister of Culture and Tourism of the Astrakhan region;

Vinogradov S. V. – Vice-Rector of Astrakhan State Technical University, Professor, Ph.D.;

Yukina E. A. – Head of the International Department of the Astrakhan State Technical University;

R. K. Arykbayev – Director of the Institute of Economics of the Astrakhan State Technical University, Professor, Doctor of Economics, coordinator of the forum;

Rudenko M. N. – Head of the Department of Humanities and Psychology of the Institute of Economics of the Astrakhan State Technical University, Associate Professor, Ph.D., Coordinator and Secretary of the forum.

It is planned to hold a discussion on the following problematic issues:

The main trends of modern globalization, glocalization and multicultural model.

Globalization from the standpoint of economic analysis, the unity of the world economy and its impact on the regional economy.

Sociocultural foundations of global diversity and preservation of national identity.

Challenges and new opportunities for cooperation between Russia and Central Asian countries in the context of a new geopolitical reality.

What are the prospects for global cooperation in the future.

How great is the economic dependence of countries at the global and regional level

Prospects for the rejection of Westernization in culture.

Opportunities for maintaining cooperation among representatives of the scientific community.

Applications for participation should be sent to: interbureau@mail.ru (speech up to 10 minutes in Russian or English).
