Goals:

This workshop provides a venue for stakeholders working in publication industry and education to enhance the status of scientific journals in ISC's database and to ease their indexation in ISC. ISC intends to hold a virtual workshop for editors-in-chief and staff of journals indexed in ISC so as to make them acquainted with our journal indexing policy and criteria. This workshop will help primary list ISC journals to enter ISC's waiting list as it can help journals in ISC's waiting list to take steps such that they can enter Core List Journals or remain so if they are already there. Moreover, the stakeholders can share practices, ideas and resources.

The topics covered include:

- Introducing ISC's services and databases
- Introducing strategies and methods to preserve and enhance Journal's Status in ISC EJCR and other universal ranking systems
- Introducing the most influential journals in various fields
- Tracking publication and citation patterns to aid strategy and policy decisions
- Supporting researchers' long-term vision and keep them informed of the latest trends with a multifaceted analytics view
